

Commander™ IT-101 Mini PC

POWERFUL

An Integrated Intel® Atom™ 230 processor, 1.6GHz processor, 2GB DDR2 667 MHz memory will make quick work of office applications.

FLEXIBLE

Mount it on the desk, under the desk, on a wall, or in a wall mount system for a compact footprint and nearly invisible presence. Use it for SAAS, office applications, or in medical environments.

AFFORDABLE

Priced hundreds of dollars below traditional office desktops, the Commander™ IT-101 is tough on applications, but easy on your budget.

An ideal desktop or wall mount computer for basic office productivity, the US Micro Commander™ IT-101 offers power, flexibility, and affordability.

As more and more office applications head to the web, the need for web-centric office PC is evident. Thanks to its powerful processor and compact size, the US Micro Commander™ IT-101 is poised to be the backbone of next generation office productivity and a gateway to "Software as a Service" (SAAS) applications.

The US Micro Commander™ IT-101 is lightweight and small, and easily mounted under a desk or on a wall, the US Micro Commander™ IT-101 offers a clean, new approach to the wired office. Optional Medical Wall Mount units, make the US Micro Commander™ IT-101 a natural in clinical and hospital settings.

- Integrated Intel® Atom™ 230 processor, 533 MHz system bus, 945GC chipset, single DIMM to 2GB, 2D/3D graphics, audio and 10/100 NIC.
- Single internal 3.5" SATA HDD bay, slim media drive bay, 6 in 1 media card reader slot, and one PCI slot with riser card.
- Ultra slim 2" chassis fits on desks, under desks, wall mountable with included kit, ideal for medical wall mount systems. Height 2" x Depth 11" x Width 12"
- Quiet, powerful, and flexible. Uses 120W external power supply with built-in DC power converter.

But, the US Micro Commander™ IT-101 is no lightweight when it comes to features. Onboard 2D/3D graphics, HD audio, four USB 2.0 ports, integrated 10/100 network port, and a wireless network option are but of few of the US Micro Commander™ IT-101 features.

Users will benefit from the US Micro Commander™ IT-101 features and easily perform regular office tasks, access medical records and images. IT managers will benefit from easier provisioning, installation, and management. Administrators will love the reliability and price point of the US Micro Commander™ IT-101.

Since 1986, US Micro is the solid choice for quality hardware and exceptional support.
